Welcome//////////

Welcome to our final newsletter of 2015 and the 'New York Show Preview' edition.

So another year has nearly passed and 2016 is just around the corner....where has the time gone?

It has been an exciting and very busy year for us here at Universal and 2016 is looking to be an even more eventful year.

2015 brought us further launches of our Iconeme technology around the world with more to come in 2016 and as always, we continue to create and launch new, beautiful and functional mannequin ranges and VM products, many of which have been highlighted in previous UDQ editions and can be seen in retailers around the world.

Many of our newest items are shown in this edition and are to be launched and showcased in our New York showroom during RDC (2nd - 4th December). We hope to see you there but if you can't make it please check our Instagram, Facebook and Twitter accounts for up to date information as the show goes on and of course both our London and New York showrooms will still be open at all times after the show for your convenience.

As we end the year we have already started on the next phase of products for launch in 2016, as well as several custom projects which will all be revealed in the New Year.

We are also going on the road in 2016, exhibiting at the VM & Display Show and Retail Design Expo in London and Globalshop in Las Vegas, so please do come and see us.

We have again tried to present you with an informative and exciting newsletter and hope that you enjoy it as much as we do putting it together.

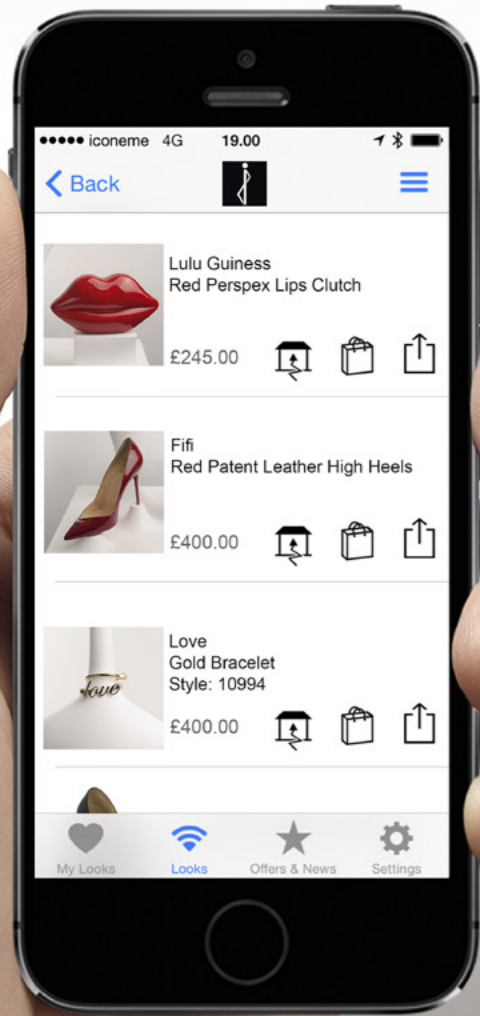

Jonathan

The UNO accessory unit can be used in conjunction with Iconeme's technology to deliver a product that communicates to shoppers in a new and ground-breaking way. The Uno range of Male and Female forms can have Iconeme's Patent Pending Beacon technology embedded in them to work with the Iconeme app, delivering shoppable windows and in-store displays. UNO sits on top of the Cubic range of Plinths, there are two heights in the range; 100 cm & 50 cm. UNO and Cubic are available in a range of colours to suit.
